Formulary ID 00018372, Version 6. This formulary was updated on 09/06/2017. For more recent information or other questions, please contact us, HealthTeam Advantage Healthcare Concierge, at 1-888-965-1965 or, for TTY users, 711, October 1 – February 14, seven (7) days a week/8 a.m. – 8 p.m. (EST), or February 15 – September 30, Monday through Friday, 8 a.m. – 8 p.m. (EST), or visit www.healthteamadvantage.com.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Care N’ Care Insurance Company of North Carolina, Inc. When it refers to “plan” or “our plan,” it means HealthTeam Advantage Plan I (PPO) and HealthTeam Advantage Plan II (PPO).

This document includes list of the drugs (formulary) for our plan which is current as of 09/06/2017. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2019, and from time to time during the year.

What is the HealthTeam Advantage Health Plan Formulary?

A formulary is a list of covered drugs selected by HealthTeam Advantage Health Plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. HealthTeam Advantage Health Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a HealthTeam Advantage Health Plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2018 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2018 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of 09/06/2017. To get updated information about the drugs covered by HealthTeam Advantage Health Plan, please contact us. Our contact information appears on the front and back cover pages. If the plan makes any negative non-maintenance formulary change, members affected will receive written notice which explains the change and the formulary posted on our website will be updated.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page number 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 101. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

HealthTeam Advantage Health Plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from HealthTeam Advantage Health Plan before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, the Plan limits the amount of the drug that we will cover. For example, HealthTeam Advantage Health Plan provides 30 tablets per prescription for Januvia 100m tablets. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, HealthTeam Advantage Health Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the Plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask HealthTeam Advantage Health Plan to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the HealthTeam Advantage Health Plan’s formulary?” on page iii for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that HealthTeam Advantage Health Plan does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by the Plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by HealthTeam Advantage Health Plan.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the HealthTeam Advantage Health Plan’s Formulary?

You can ask HealthTeam Advantage Health Plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, the Plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, HealthTeam Advantage Health Plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier, or utilization restriction exception. **When you request a formulary, tier, or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with 91 to 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

- **Emergency transitions and level of care changes:** You may have a change in your treatment setting due to the level of care you require. Such transitions include:
 - If you are discharged from a hospital or skilled nursing facility to a home setting
 - If you are admitted to a hospital or skilled nursing facility from a home setting
 - If you transfer from one skilled nursing facility to another and that new facility is serviced by a different pharmacy
 - If you end your skilled nursing facility Medicare Part A stay – where payments include all pharmacy charges – and you now need to use your Part D plan benefit
 - If you give up Hospice status and revert back to standard Medicare Part A and B coverage

If you are outside your transition period, and experience a level of care change, HealthTeam Advantage

Health Plan will allow you access to a 30/31 day refill (30 days in the retail setting and 31 days in the long-term care (LTC) setting) for formulary medications and an emergency 30/31 day (30 days in the retail setting and 31 days in the LTC setting) transition fill for non-formulary medications (including Part D drugs that are on the Plan's formulary but require prior authorization, step therapy exception, or quantity limit exception). This will occur on a case-by-case basis when an exception request or appeal has been filed but has not been completed by the end of the transition period. All transition fills for new members, either in the retail setting or LTC setting, will process automatically. If you require a transition fill outside of your first 90 days with HealthTeam Advantage Health Plan, you or your pharmacist should contact us at 1-844-846-8003, 7 days a week, 24 hours a day (TTY/TDD users should call 711), so we can implement our transition policy for you. If you enroll in our plan while living at home and then become a resident of a LTC facility, please contact us at 1-844-846-8003, 7 days a week, 24 hours a day (TTY/TDD users should call 711) to let us know that you're now a resident of an LTC facility. We can then implement an LTC transition policy for you. This policy does not apply for short-term leaves of absences (i.e. holidays or vacations) from LTC or hospital facilities.

We'll send you written notice via U.S. first-class mail within three business days of receiving your transition fill transaction from the pharmacy. This will contain an explanation of the temporary nature of that prescription fill, instructions on how to identify an appropriate therapeutic alternative that is on our formulary, an explanation of your right to request a formulary exception, and the procedure for requesting a formulary exception.

HealthTeam Advantage Health Plan's Formulary

The formulary below provides coverage information about the drugs covered by HealthTeam Advantage Health Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 101.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., JANUVIA) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if HealthTeam Advantage Health Plan has any special requirements for coverage of your drug.

Every drug on the plan's Drug List is in one of five cost-sharing tiers. The second column of the chart lists the tier for each drug.

- **Tier 1 - Preferred Generics:** (*Generic drugs that are available at the lowest cost share for this plan.*)
- **Tier 2 - Generics:** (*Generic and some very low cost brand drugs that are available at a higher cost to you than drugs in Tier 1*)
- **Tier 3 - Preferred Brands:** (*Generic or brand drugs that are available at a lower cost to you than drugs in Tier 4*)
- **Tier 4 - Non-Preferred Drugs:** (*Generic or brand drugs that are available at a higher cost to you than drugs in Tier 3*)
- **Tier 5 - Specialty Drugs:** (*This is the highest-cost tier. Some injectables and other high-cost drugs*)

During the Initial Coverage Stage, the plan pays its share of the cost of your covered prescription drugs, and you pay your share (your copayment or coinsurance amount). Your share of the cost will vary depending on the drug and where you fill your prescription. Below is a summary of your copay amount based on drug tier.

	Standard In-Network Retail or Mail-Order (up to a 30-day supply)	Standard In-Network Retail or Mail-Order (up to a 90-day supply)

3: Tier 3 - Preferred Brands

4: Tier 4 - Non-Preferred Drugs

5: Tier 5 – Specialty

BD: Part B vs Part D determination. This prescription drug may be covered under Medicare Part B or D depending upon the circumstances.

GC: Gap Coverage. We provide additional coverage of this prescription drug in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage.

HR: High Risk Medication. These drugs require prior authorization if you are 65 years of age or older. According to medical experts, these drugs may cause more side effects if you are 65 years of age or older. If you are taking one of these drugs, ask your doctor if there are safer options available. If your doctor feels this high risk drug is right for you, you (or your physician) are required to get prior authorization before you fill your prescription for this drug.

LA: Limited Access. This prescription drug is limited to certain pharmacies.

NMO: Not available through Mail Order.

PA: Prior Authorization. You (or your physician) are required to get prior authorization before you fill your prescription for this drug. Without prior approval, we may not cover this drug. If the abbreviation “HR” is also listed, this prior authorization requirement may not apply to you. See the “HR” abbreviation definition located on this page for further details.

QL: Quantity Limit. There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.

ST: Step Therapy. In some cases, you may be required to first try certain drugs to treat your medical condition before we will cover another drug for that condition.

You can find information on what the symbols and abbreviations on this table mean by going to page 1 of the introduction. Formulary ID: 18372, Ver. 6 Last Updated 09/06/2017 Effective Date: 01/01/2018
